

Mobile Solutions For In-Vehicle & Confined Space Work Environment

The Pentax PocketJet II ultra-portable printer is one of the smallest, lightest, and most effective full-page printing solutions you can buy for your advanced printing needs. Whether your **MOBILE** workers use a laptop, handheld PC, or Personal Digital Assistant, the PocketJet II will give you sharp text, crisp graphics and high-quality documents in almost any environment, including extreme temperature and pressure variations.

At barely over 10" long and 1 lb. in weight, the PocketJet II fits easily in a briefcase, or can be quickly mounted in any vehicle or small work area. And with a quick-charge **NI-CD BATTERY**, the PocketJet II makes you more productive than ever. PocketJet II gives you up to 40 pages per charge and a complete recharge in less than 70 minutes.

Plus, an optional **INFRARED** adapter interface, you can completely eliminate the need for cables and wires. Just point and print.

Laser-Sharp Text & Graphics Without The Hassle Of Ink Or Ribbons

The PocketJet II gives you ultra-sharp 300 dpi **PRINTING** at speeds of up to 3 pages-per-minute...and no matter how much you print you'll never have to replace an ink cartridge. Using advanced Pentax direct thermal printing

technology, the PocketJet II completely eliminates the hassle of smudged prints or running out of ink.

Plus, with fewer moving parts than any other **PORTABLE** printer, the PocketJet II can survive longer in even the most torturous work environments. Inside or outside, summer or winter, you'll always be able to print on the go.

Imagine The Possibilities Of Portable Printing

With the PocketJet II from Pentax Technologies, you'll enjoy more mobility and productivity than you ever imagined. Only Pentax can deliver all of these exclusive portable printing benefits:

- Fast full-page portable printing...up to 3 pages-per-minute
- Virtually maintenance-free mechanism with very few moving parts
- Free lifetime tech support and 1-year warranty
- Compatible with Windows, EPOC, Palm, Pocket PC and Blackberry OS devices
- Ultra-lightweight...only 1.12 lbs including battery
- Lower cost-per-page
- No ink cartridges to replace
- Long-life Ni-Cd battery

Ultra-Portable Printing For Every On-The-Go Application
